Progress Report:

En este sprint no procede realizar un análisis en cuanto a los indicadores de rendimiento que hemos descrito en el charting report puesto que no a habido tiempo para cumplir con lo establecido ni se realizo el charting report en tiempo para cumplir con las reglas establecidas para indicar el rendimiento de los miembros del grupo.

Por otro lado, en este sprint no nos hemos encontrado con ningún conflicto a solucionar debido a la simplicidad de las issues a realizar por cada miembro.

Lo único destable es que hemos tenido ciertos problemas con la instalación e instanciación del proyecto y nos ha llevado mas horas de lo previsto.
